US204762

ITPR052350 - CET - Load Associate - Edit/Delete from Weekly Calendar View

As a Care Concierge or Generalist,

I want the ability to click into associate shift from calendar view to make edits/deletes

so that it allows user to quickly access existing shift to make adjustments without having to search for associate

Health Hub - CET Remote (cvshealthcloud.com)

ITPR052350 - CET - Group Event Scheduling –
Edit a single event followed by edit series - display message

As a Care Concierge or Health Coach,

I want to be able to see a message when I edit the event series and there is one off event(s)

so that I am aware that there are one off events in the series.

- User schedules a recurring event for every Monday 8 am – 9 am from now till end of the year.
- User navigates to next month and edits 2nd Friday event and changed the start time to 4 pm and saves it.
- Now user navigates to current week schedule and edits the event series from today and updates the start time to 9 am.
- After saving the event series all the events including next months 2nd Friday event should all should show 9 am start time.
- Add message in modal “Okay” button only :
- “If you changed individual event(s) in the series, your changes will be cancelled and those events will match the series again.”

ITPR052350 - CET - Load Associate - Sort Breaks by time in ascending order

As a Care Concierge or Health Coach,

I want to see breaks sorted in ascending order of the break start time automatically

so that it will be easier for user to comprehend the break times.

CVSHealth John Doe Log Out

ITPR052350 - CA - Default Settings - Associates - One Role ONLY per Associate

As a user with HH Admin Role

I want to limit an associate in CA Tool with one role

since currently there is no use case with one associate having multiple roles and to avoid conflicts in scheduling.
